

The HWH[®] SpaceMaker[®] Single-Cylinder Hydraulic Generator Extension

Features and Benefits

- Mechanism is light weight, minimizing the overall weight of the RV.
- Extension cylinder is hydraulically powered with the use of a momentary switch.
- Shares components with the HWH Leveling System - weight savings.
- Single cylinder mechanism can handle a load of 800 pounds.
- Cylinder extends up to 35 inches.
- Built with the same high quality construction & materials as HWH Leveling Systems.
- Designed to withstand the environment and hold up over time.
