

HWH® Sweepeze®

Slide-Out Debris Removal System

Sweeps Water & Debris from Roof of Slide-Out

▲ The aluminum extrusion works as a “shovel” to remove larger debris while the wiper blades bend, similar to a “squeegee”, to remove finer debris and water.

HWH® Sweepeze®

Includes the following features...

- When the room is retracted, **Sweepze** automatically sweeps water and debris from the roof of the slide-out.
- Eliminates the need for expensive slide-out awnings.
- Eliminates the need for a slide-out flange at the top of the room.
- **Sweepze** is not limited by room length (solves problem of installing awnings on full-length slide-outs).
- **Sweepze** can be used in conjunction with the HWH Universal “Level-In” “Level-Out” slide-out mechanisms.
