

# HWH® Hydraulic Saddle Rack

*Available with three or four racks*

*Left Handed or Right Handed*

**Store Position**

**Lowering**

**Load Position**

- No more reaching up and struggling to place saddles on top racks
- Entire rack folds down out of trailer tack room
- Loading position is at table height and horizontal for easy loading and unloading
- New saddle rack seat is designed to fit most saddles
- Design “holds” saddles to seat better than other models
- Durable mesh fabric allows saddles to air dry
- Saddle protectors keep stirrups and girths from damaging lower saddles
- Material is strong, soft and machine washable
- Can be mounted in new or existing trailer tack rooms
- Contact HWH® to verify dimensions and clearance before ordering
- If HWH® equipment (jacks or slide rooms) are on trailer, rack can be powered off existing hydraulic power unit
- If mounting into trailer without HWH® equipment, a 12V DC hydraulic power unit is easily added
